

## **Appendix 1-20 – Evacuation Database Status Definitions**

**Active** - Record is active in the data base.

**Deceased** - Patient has passed away.

**First attempt** - First attempt call was made to the registrant with no contact.

**Second Attempt** - Second attempt call was made to the registrant with no contact.

**No Contact** - First attempt, second attempt and firefighter visit was conducted and we are unable to contact the registrant. This takes the registrant off of Active Status.

**Relocated** - Registrant moved out of Jefferson, Hardin, or Orange County.

**Request to be removed from the data base** - Takes the registrant out of the active system.

**Duplicate** - Update the most current record and change the old record to duplicate status.

**Nursing Home** - Registrant is located at a nursing home. The nursing home should be advised that the person has registered in the State Evacuation System.

**Transportation assist not required** - The citizen has registered with the State Transportation Registry but has does not need assistance to an evacuation satellite site.

**NSWBRFG** - Evacuated from Westbrook.
